Many people still think Saab makes cars,
and that is correct.

**We are on the go
for the future.**

Saab is very much alive and well, as one of the
world's most innovative companies. And now we
are proud to present our motorcycle for the future:
FastSecurity, FS.

Saab started life in 1937 in Trollhättan, Sweden, as an aeroplane manufacturer to provide aircraft for the Swedish Air Force, just as Europe was steeling itself for another war. The company's full name was Svenska Aeroplan Aktiebolaget, giving the world the acronym Saab. The head office

soon moved to the Swedish university town of Linköping, where this massive company has its largest operation today. It was there in 1945, amid various dreams of diversification, that a project to develop motor cars got underway. Today we are starting a new chapter. Fast Security, FS. Is the future motorcycle.

SHARP

Fast Security started life in 2018 in Gothenburg, Sweden, as the first manufacturer to provide aircraft for the Swe has its largest operation todayay. Today we are starting a new chapter. Fast Security, FS. Is the future motorcycle.

NEXT CORNER

Believre started life in 1937 in Trollhättan, Sweden, as an aeroplane manufacturer to provide aircraft for the Swedish Air Force, just as Europe was steeling itself for s of diversification,.
